Christian Wijaya

Christian Wijaya is a luxury fashion brand celebrated for its timeless elegance and modern sophistication. Known for blending classic styles with contemporary innovation, the brand crafts high-end apparel, accessories, and footwear that exude exclusivity and refinement. Each piece reflects meticulous attention to detail, from the selection of premium materials to the precision of its craftsmanship. With a commitment to quality and artistry, **Christian Wijaya** has earned a loyal following among style connoisseurs, including celebrities and trendsetters, who seek fashion that makes a bold yet elegant statement.

Beyond its designs, **Christian Wijaya** embodies a philosophy of sustainable luxury. The brand integrates eco-friendly practices into its production processes, ensuring that its creations are not only beautiful but also responsible. Whether it's a bespoke evening gown or a statement leather accessory, each item represents a perfect balance between heritage and innovation. With a reputation for delivering unparalleled sophistication, **Christian Wijaya** continues to define what it means to be a modern luxury fashion house.

Christian Wijaya Managements still don't have any website to promote their product. They hire you as front-end developer to create a website. The management requests you to make a **website prototype** and then the website that represents the company. Christian Wijaya Managements hope that the website can grow up and support the expansion of the **Christian Wijaya** brand into luxury world class brand.

The **requirements** from Christian Wijaya are described below:

1. The management wants you to design the **website prototype** for **all five pages**. Make sure that the website prototype that you designed is **different** from the website that you will make later, even if the themes are same. For each page contains **header, navigation bar, content, and footer**. Consider the **layout, color, and consistency** when designing the **prototype**.
2. Christian Wijaya management wants you to build the website have a luxury looks, appealing, fully functional, and responsive. Make sure that the website is accessible to mobile users with a perfect

look. To achieve that, use **5 kinds of CSS property** and **JavaScript**. Use **meta viewport tag** and **media screen rule** that will be applied if the screen is **below 768px** screen width.

3. The website contains **five pages**. They are **Home Page, Product Page, Product Detail Page, Event Page, and About Us Page**. Below are the requirements for each page:

- **Home Page**

This page shows the **general information** about the Christian Wijaya brand. You can add the latest product information.

- **Product Page**

Product page contains the **product** that Christian Wijaya have. Make sure to provide at least **10 products**. Display the **name** and the **picture for each product**. You can refer to **many luxury brands**. Show the **trailer** of the company about fashion or representation of the product.

- **Product Detail Page**

Product details are contained of the selected product. Make sure that you add the **quantity input** and **button** Add to Cart and Order Now.

- **Event Page**

On this page, provides the registration form for people who wants to be a model. The participant needs to submit some **personal information** such as **email address, full name, birth date, gender, and terms and condition**. You are asked to create **5 kinds of form components** and **5 kinds of validation**. For validation, you must create it using **JavaScript** and **do not use regular expressions**.

- **About Us Page**

This page provides the **information details** of the company. Shows the **identity of the company** like company's building, logo, or any pictures that related to the company.

Guidelines:

- a. Design your website by observing the principles of **human and computer interaction**. Set up your site as **creatively** as possible but still strive for **consistency**.
- b. The **website prototype** must be designed using **Figma** and make sure to create some **features**, such as color and text style, effect, component, variant or interactive component, and navigation.
- c. Consider the **color, font, size, and layout** that you use to design the prototype and website.
- d. Use only **external CSS**. Internal or inline CSS will not be marked.

- e. Use **CSS box positioning** to design your web structure, do not use table for the layout.
- f. Consider the **language** you use, including spelling and grammar, feel free to choose either Bahasa or English, but you cannot have both at the same time.
- g. Make your website **responsive** so it can deliver in any size, particularly for **desktops, tablets, and mobile devices**.
- h. Any kinds of **framework** are **prohibited**. Do the project **with vanilla (original) HTML, CSS, and JavaScript**.
- i. Organize your files with **subdirectories**.
- j. Include **references** (link from a website, book, etc.) that you use in creating the website.

Nama: Cannavaro Lie
